Lighting The Way For A Brighter Future

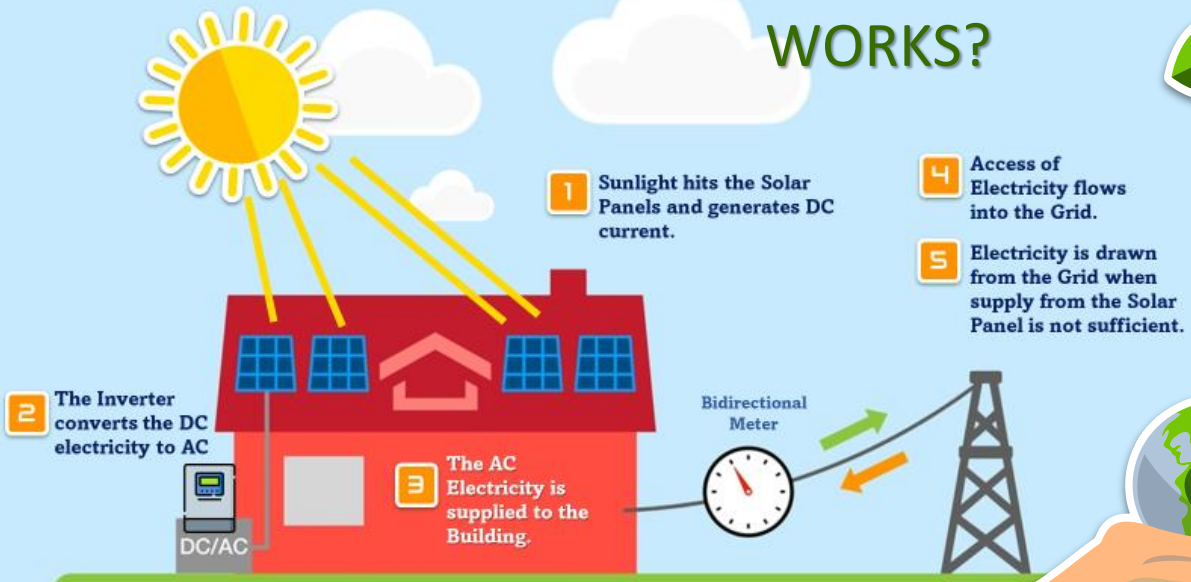

NEM RAKYAT CONCEPT

Under the **NEM Rakyat Programme**, Domestic Consumer(s) who has solar PV installation on the rooftop of their premises will consume the energy produced first, and any excess will be exported to the TNB grid. The credit to be received for such excess energy will be used to offset part of the electricity bill on a "one-on-one" offset basis for a period of **ten (10) years** of operation.

HOW NEM WORKS?

WHY CHOOSE US?

Professional Installation Team

Hassel-Free Customer Support

Customized Financial Solution

Selection of Quality Components
