<b>DEPARTMENT</b>	<b>:</b>	<b>INFORMATION TECHNOLOGY (IT)</b>
<b>VACANCY</b>	<b>:</b>	<b>ONE (1)</b>
<b>COMPANY</b>	<b>:</b>	<b>BINA DARULAMAN BERHAD</b>
<b>LOCATION</b>	<b>:</b>	<b>ALOR SETAR, KEDAH DARUL AMAN</b>

#### **PURPOSE OF POSITION:**

To design, develop, and maintain web and mobile applications and software programs that meet the needs and requirements of an organization. This includes ensuring the applications and programs are functional, efficient, and secure, as well as being compatible with multiple platforms and devices.

#### **REQUIREMENTS:**

- Candidate must possess at least Professional Qualification or Diploma / Degree in Computer Science or equivalent.
- At least 3 - 5 years in related fields.
- Experience/knowledge in managing/administrates computer network.
- Communication skills and keen attention to IT technical detail.
- Solid technical background in a hosted services environment including infrastructure networks.
- Able to gather relevant information systematically to troubleshoot and resolve issues.
- Good analytical, problem solving and decision-making skills.
- Speak and write business correspondence of English and Bahasa Malaysia.

## **RESPONSIBILITIES:**

1. **Application Development:** Designing, developing, and maintaining web and mobile applications and software programs using programming languages, frameworks, and technologies.
2. **Technical Analysis:** Analyzing user requirements and translating them into functional and technical specifications. Evaluating existing systems and recommending improvements or enhancements.
3. **Technology Research:** Staying updated with emerging web, mobile, and software development technologies and trends. Conducting research and providing recommendations for the adoption of new tools, frameworks, or methodologies.
4. **Maintenance and Support:** Maintaining and updating existing applications and programs to ensure their stability, performance, and security. Providing technical support and troubleshooting assistance to resolve user issues.
5. **Monitors service delivery compliance to budget, quality standards and customer and business stakeholder requirements.**
6. **Documentation:** Creating and maintaining technical documentation, including user guides, system documentation, and code documentation, to facilitate proper usage and future maintenance.
7. **Security and Compliance:** Implementing security measures to protect applications and data from potential threats. Ensuring compliance with relevant regulations, such as data privacy and security standards.
8. **Performance Optimization:** Identifying opportunities for performance optimization and implementing necessary enhancements to improve application speed, efficiency, and scalability.

## **HOW TO APPLY:**

Interested candidates are encouraged to submit their resume, cover letter, and portfolio (if available) to **hr\_recruit@bdb.com.my**. Please indicate **"Web / Apps Developer"** in the subject line of your email.
