**BINA DARULAMAN BERHAD :
EXECUTIVE / PROGRAMMER, GROUP INFORMATION TECHNOLOGY**

Job Details	: FOR MALAYSIAN ONLY
Position	: Executive / Programmer, Group Information Technology
Grade	: Executive
Department	: Group Information Technology
Employment Status	: Contract
Working Location	: Kedah/Malaysia

PURPOSE OF POSITION

Responsible for designing, developing, and maintaining web and mobile applications, as well as software programs that meet the needs and requirements of an organization. This includes ensuring the applications and programs are functional, efficient, and secure, as well as being compatible with multiple platforms and devices. Translate complex technical requirements into effective and user-friendly applications and programs that help drive the success of the organization.

QUALIFICATION

- Degree or Diploma in Information Technology / Computer Science or related qualification.
- 2 - 5 years working experience in related fields.

JOB DESCRIPTION

- Analyzing user requirements and translating them into functional and technical specifications.
- Designing, developing, and maintaining web and mobile applications, as well as software programs.
- Writing clean, efficient, and well-documented code.
- Debugging and fixing technical issues in the applications and programs.
- Ensuring the applications and programs are compatible with multiple platforms and devices.
- Conducting testing and quality assurance of the applications and programs.
- Collaborating with designers, project managers, and other stakeholders to ensure the applications and programs meet project requirements and user needs.
- Maintaining and updating existing applications and programs.
